

# WEBeDoctor Electronic Health Information Export

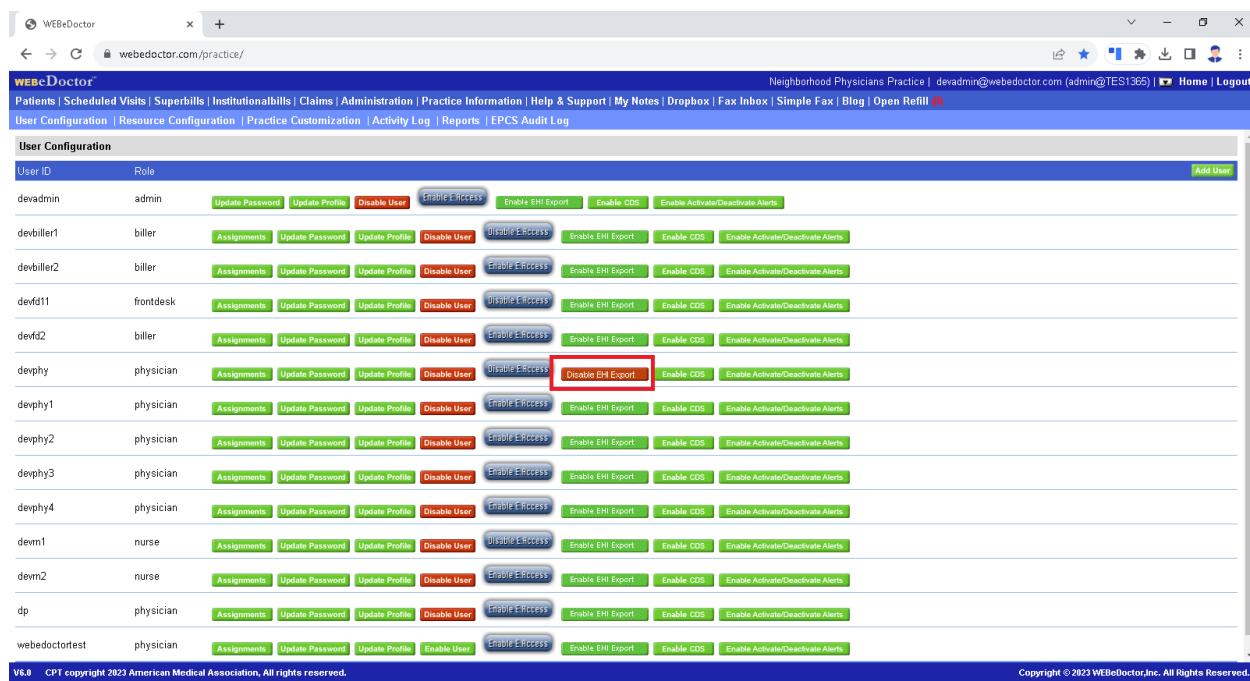

## [170.315(b) (10)]

WEBeDoctor is compliant with **§170.315(b) (10) Electronic Health Information Export** by generating C-CDA 2.1 electronic documents. The HL7 Consolidated Clinical Document Architecture (C-CDA) is an XML-based markup standard that provides a library of CDA-formatted documents. This document outlines how to use the WEBeDoctor Physician Office to export patient records compliant with 170.315(b) (10).

The full documentation of the C-CDA format is available from the following location: [https://www.hl7.org/implement/standards/product\\_brief.cfm?product\\_id=447](https://www.hl7.org/implement/standards/product_brief.cfm?product_id=447)

### Rights Management to Generate C-CDA:

Rights must be assigned to generate C-CDA from a facility admin account from **Administration > User Configuration > Click the button “Enable EHI Export”** for the selected user as shown in the screenshot below:

The screenshot shows the WEBeDoctor User Configuration page. The 'User Configuration' section lists various users with their roles and access buttons. The 'devphy' user, listed as a physician, has the 'Disable EHI Export' button highlighted with a red box. Other users listed include devadmin, devbiller1, devbiller2, devfd11, devfd2, devphy1, devphy2, devphy3, devphy4, devm1, devm2, dp, and webedoctortest. Each user row contains buttons for 'Update Password', 'Update Profile', 'Disable User', 'Enable EAccess', 'Enable EHI Export', 'Enable CDS', and 'Enable Activate/Deactivate Alerts'.

### Single Patient Electronic Health Information Export:

A single patient export can be achieved by using the WEBeDoctor Physician Office EMR and navigating to **Hub > EHI Export > One Time > Select Patient > Save** as shown in the screenshot below:

WEBeDoctor Home | Logout

Patients | Calendar | Scheduled Visits | Profile | Customization | Patient Kiosk | New Patients (13) | Notices/Reminders | Hub | Help & Support | My Notes (1) | Dropbox | EPCS Report | Fax Inbox | Simple Fax | Blog | Open Refill (0)

Diag Report | Quest | NTL | Rx Hub | HL7 | LabCorp | Result-only Labs | Send Fax | Fax Report | EHI Export | Referral Letters | Exams Ordered | RPM | CCM | Eligibility | Send SMS | Time Sync
