

WEBeDoctor understands that specialists require more than just a standardized practice management solution. We collaborated with Pediatricians in efforts to provide them with a relevant system unique to the demands of pediatrics.

WEBePeds EMR is the solution that Pediatricians want and need.

My name is _____ and I am a Sales Associate at **WEBeDoctor**. I want to thank you for your interest in our WEBePeds® Pediatric Patient Management solution!

Please allow me to introduce to you WEBePeds® - It is a quick and efficient (Cloud-based) solution that allows Medical and Physician Groups to instantly reduce interrelate costs from managing a pediatric practice; and it ensures complete patient privacy and safety. Additionally, WEBePeds® is the most efficient way to increase your profits, manage patient record, and streamline your office workflow. The pediatric templates in WEBePeds® were developed by Pediatricians themselves—ideal for single and multi-physician offices.

WEBePeds® strives to not only give you and your practice the software to automate patient record documentation, but also provides you with data storage, data retrieval, and other tools that guarantee for fast and complete return on your investment.

WEBePeds has the best of 3 features:

Maintain a patient-centered practice

Revenue cycle management

Improve time consuming office processes

With WEBePeds, patient information is instantly accessible to you and your staff. WEBePeds captures all of your patient related messages and assigns them to the appropriate medical record---keeping your office's health records up to date.

WEBePeds is a complete revenue cycle management system. This system easily lets you determine insurance eligibility and patient insurance coverage. WEBePeds provides a streamlined billing and electronic claims processing module for your facility.

WEBePeds eliminates time lost searching for misplaced charts because documentation is written at the point-of-care and organized electronically right away---leaving you and your staff to spend more time on patient care.

Call me at 714-990-3999 to discuss your pricing plans, and arrange a NO charge live demonstration for you and your practice!

WEBeDoctor.com software can perform all of the EMR tasks you may require. Our software is HIPAA compliant, Drummond Certified, and ranked in Medical Economics 2013 Top 100 EHRs. Compared to our competitors, WEBeDoctor.com is an inexpensive comprehensive system.
